TESTIMONIALS

Hania (Introduction to NDIS, Disability Support and Community Services) *I have learned from this course, NDIS worker orientation module to be loyal, supportive, protective, to have trust relationships with disability patients, to be a support worker you should use communication all the time between you and the client. We have a responsibility to respond to our client like give them permission to whatever they want to do. We should respect their wishes by building open relationships and honest communication.*

Kenei (Introduction to NDIS, Disability Support and Community Services) *I thoroughly enjoyed the class from the start to finish. The trainer's way of presenting was amazing. A lot of interesting material was involved and really took the time out to make sure we understood the information. I did not realize how much I needed to learn as a support worker until I took this class. I feel like I can make a better impact on the community now.*

Tania (Introduction to NDIS, Disability Support and Community Services) *During this course I have gained the knowledge of working with people who are vulnerable in our community. I have learnt about all kinds of disabilities and the needs of our community. We have had guest speakers who opened my mind up to a whole new world. I am grateful for all I have gained out of this course and I hope to use these skills in my workplace. Thank you Janet and the Doveton Neighbourhood Learning Centre for giving me this opportunity.*

Emily (Introduction to NDIS, Disability Support and Community Services) *During the time of me completing this course I have decided this is a field I enjoy and will continue to further my study through doing Certificate IV in Disability.*
